We empower students to make informed decisions that support individual health and a healthy campus environment by providing comprehensive programs and coordinated services to:

- Build **awareness** through assessment and goal setting
- Create **balance** by taking a wellness based approach to health
- Develop healthy and sustainable **habits**
- Take **pride** in achieving your personal best
- Inspire **community** by leading fellow Anteaters to be healthy

**VISION**
To be a leader in collegiate health promotion by focusing on the unique and relevant health needs and concerns of UCI students in support of their academic success

**MISSION**

**VALUES**
Advocacy • Awareness • Empowerment
Behind Happy Faces is a training program that uses interactive exercises and guided discussions to get students talking about the topic of mental health. It teaches the difference between mental health and mental illness, gets students comfortable with talking about the full spectrum of mental health, and creates an understanding of how to get people the appropriate help.

By helping students understand that mental health is very similar to physical health, it reduces the stigma around talking about it and helping people seek help for various mental health challenges. This helps normalize the conversation and encourages people to both share and seek help for the challenges they face. It also prepares participants to be more knowledgeable and supportive when they need to support a friend, family member or acquaintance.

The primary goal of the Step Up UCI! Bystander Intervention Program is to help create a caring campus community and environment, where everyone looks out for and takes care of each other. Operating under the following mantra, the program hopes to achieve that goal: See Something … Say Something … Do Something!

SEXUAL & RELATIONSHIP HEALTH

WORKSHOPS

HIV/AIDS
This workshop consists of the most updated information about HIV infection and AIDS, including modes of transmission, symptoms, HIV testing, prevention methods, treatment and public health/social implications of HIV/AIDS.

IS IT SAFE? IS IT SEX?
This workshop includes an overview of STIs (symptoms, mode(s) of transmission, testing and treatment), birth control (types, effectiveness, health concerns & pros/cons), and safer sex practices. The importance of consent, communication and getting tested is emphasized.

LOVE SMART JEOPARDY
Covers 6 sexual health topics (STIs, Birth Control, LGBTQI Health, I just heard…., Did you know? & My first time) all designed to inform and educate students in a fun, engaging game format.

CONSULTATIONS
Individual consultations provide students with information about HIV or other STIs, birth control methods, concerns about sexual health and relationships and any questions students have so they can make informed and safe decisions.
WORKSHOPS

ALCOHOL 101
Students learn the foundational knowledge about alcohol & alcohol safety and how to keep themselves safe and others around them when confronted with challenging situations.

6 WORKSHOPS
158 STUDENTS

MARIJUANA 101
Students learn the basics about marijuana. What is it? What are the effects? Who uses it and how is it used?

3 WORKSHOPS
553 STUDENTS

SO YOU THINK YOU CAN PARTY?
Students hear about what the drinking culture really looks like at UCI while dispelling common misconceptions about alcohol.

3 WORKSHOPS
45 STUDENTS

ALCOHOL AWARENESS CLASS
Sanctioned students participate in either our weekly alcohol awareness class (Happy Hour) or our Brief Alcohol and Other Drug Screening and Intervention for College Students (BASICS).

Workshops educate students about stress and how to create a life of wellness through self-care strategies and time management. Student are asked to self-reflect and set goals to create positive change for themselves.

**FINANCIAL WELLNESS**
This interactive workshop will provide students with tips and tools to help them plan a budget and set financial goals.

**STRESS MANAGEMENT**
This workshops focuses on the key concepts of stress and how stress effects our body and mind. Students will explore their own personal stressors and discover tips to help deal with stress.

**TIME MANAGEMENT**
This workshops provides tips and strategies to help make the most of the 24 hours in your day.

**SELF-CARE**
In this interactive workshop we explore the idea of self-care, wellness, and relaxation. At the end of the workshop students are encouraged to create their own self-care plan.

**YOGA/MEDITATION**
In this workshop, students learn how to practice yoga and meditation to achieve relaxation with deep breathing exercises as well as strengthening and stretching poses.

**DIMENSIONS OF WELLNESS**
This workshops explores the different dimensions of the CSWHP Wellness Wheel. Students will assess their own wellness and learn about tools & tips for bettering their health and wellness.

Through 1-on-1 consultations and workshops, students can learn how to prioritize their time and prioritize their personal wellbeing. Students are educated about stress and how to create a life of wellness through self-care strategies and time management.

*Position was vacant Summer 2016 and Fall 2016*
Workshops are centered around promoting balanced eating and body positivity which can reduce the risk of disordered eating as well as weight-related diseases such as prediabetes/diabetes, hypertension, cardiovascular disease and certain cancers.

### Smart Eaters
This workshop series, created in partnership with the FRESH Basic Needs Hub, covers the basics of healthy nutrition, financial wellness, and provides simple cooking demos to help students combat food insecurity and stay healthy.  
198 workshops, 198 students.

### Body Image
This workshop offers information and discussion on positive body image including how to appreciate your body - your partner for life!  
84 workshops, 84 students.

### Healthy Eating on a Budget
How to choose healthy foods to sustain energy throughout the day and teach how to shop for healthy foods and snacks that won’t break a budget!  
20 workshops, 20 students.

### Eating for Energy
How to optimize diet for ultimate college success. This covers the basics of a balanced diet, meal planning, hydration, and reducing caffeine and sugar.  
82 workshops, 82 students.

### Consultations
The session includes goal-setting, strategy development and an action plan. Various topics may include sports nutrition, weight management, body image, vegetarianism, etc.

The Center for Student Wellness & Health Promotion also utilizes online educational programs to supplement our efforts.

**GOAL SETTING**
Students learn about the steps needed to set and maintain goals that they want to achieve.

**CONSULTATIONS**
Through consultations, students are invited to examine their current strengths and deficits when it comes to wellness while being made aware of self-care to improve their emotional state.

**ONLINE EDUCATION**

**FIRST**
First-year Internet Required Safety Training (FIRST) is a 40-minute program that covers both alcohol and sexual violence, and is required to be completed by all new students to campus (first-year and transfer students). The 20-minute alcohol section covers some basic info about alcohol physiology, campus data around alcohol use, and campus resources.

**E-CHUG**
E-CHUG (an online alcohol assessment tool) helps students assess their attitudes and behaviors associated with alcohol use. This module is required for students who take the Alcohol Awareness Class and/or BASICS appointments.

**E-TOKE**
E-TOKE (an online cannabis assessment tool) helps students assess their attitudes and behaviors associated with cannabis use. This module is required for students referred for AOD consultations, specifically for cannabis violations. Students can also access and take these modules (E-CHUG and E-TOKE) on their own, if they choose.
ZOT HEALTH FAIR
The Zot Health Fair is an annual Fall quarter event for students and staff to engage with campus and community resources to learn about information and services available to promote and support a healthy campus lifestyle.

STUDENT WELLNESS IN THE PARK
Student Wellness in the Park was a day of relaxation, where students had the opportunity to engage in mindfulness activities such as, guided meditation and yoga. Students also had the chance to hear from a professional storyteller and play a variety of games. Jamba Juice was provided for the first 200 students.

DE-STRESS FEST
De-Stress Fest is a quarterly event that occurs during Finals Week that provides stress-relieving activities, therapy dogs, as well as free snacks and drinks to help students relax.
CONDOM CO-OP
The Condom Co-Op continues to be a popular and needed service. Students can access up to 10 free internal and external condoms and/or dental dams and 5 individual lubricants upon request daily. This service is crucial as barriers are the only way to protect against STIs for those who are sexually active.

ANONYMOUS HIV TESTING
The HIV testing program has been very successful in providing free, confidential and anonymous testing to students. Students receive their results in 20 minutes using the Federally-approved Oraquick In-Home HIV Testing kit. They also receive information on the importance of other STI screenings, establishing a well-care program while at UCI, and discussing healthy sexual and relationship behaviors and practices.

LACTATION STATION
Lactation station, which is one of only a few places on campus that is dedicated for nursing mothers. The room is attached to a private bathroom and continues to give nursing mothers a clean, safe and private space. Students, staff and faculty are welcome to use this service, as well as individuals participating in conferences at the Student Center when open.

TiPS TRAINING
TiPS Training is a certified Responsible Beverage Service (RBS) training for servers of alcohol. CSWHP has a relationship with UCI Dining & Hospitality Services, where we provide TiPS training for all of their staff who serve alcohol on campus. This training covers the basic physiology of how alcohol works in the body, signs and cues of various levels of intoxication, and effective strategies to address problem behaviors and situations.
STUDENT INVOLVEMENT

PEER HEALTH EDUCATORS
CSWHP Peer Health Educators are a group of trained student volunteers who provide outreach to their fellow Anteaters on topics of alcohol and other drugs, sexual health, healthy relationships, nutrition, stress management, self-care, and mental health awareness. The PHEs educate and empower their peers to be proactive in maintaining their wellness and thus preventing negative effects from stress and lack of self-care, poor nutrition, unsafe sex, and unhealthy alcohol and drug use. The PHEs present these topics in front of groups in the form of presentations and also table at large and small events. Most outreach is requested by outside groups such as student organizations, housing communities, sororities and fraternities.

FIELD STUDY/PRACTICUM
The Center for Student Wellness & Health Promotion is one of many placement sites for students in the School of Social Ecology (4-unit course) & the Program in Public Health (8 unit course) to complete their internship. Supervised by the Assistant Director, students learn about all of the programs and services the CSWHP has to offer, work at the front desk, assist with tabling and other promotional events and work on various projects. Both programs require 100 hours to complete their internship with an evaluation submitted to their field study or practicum Director at the end of the quarter.

PROGRAM ASSISTANTS
Program Assistants work with the Program Managers and Department Coordinator on various projects including data collecting & recording; front desk coverage, event coordination and coverage.

MARKETING ASSISTANTS
Marketing Assistants work with Program Managers to create, design and produce marketing materials for various programming events; they’re responsible for managing the department’s social media accounts, updating the website, creating & distributing monthly MailChimp.
