Do I Need to Self-Isolate for COVID-19?

Based on the best scientific advice currently available by the CDC

This guidance is for people with no fever or respiratory symptoms and are not healthcare workers. Remember that your status may change over time, depending on risk exposure. Please continue to assess your interactions with others to determine the right course of action.

**MUST SELF-ISOLATE**

**PERSON WHO HAS TESTED POSITIVE FOR COVID-19**

- Close contact
- A
- B
- C

**PERSON WITH SYMPTOMS WHO WAS TESTED AND IS AWAITING RESULTS**

- Close contact
- X
- Y
- Z

**PERSON WHO IS WELL, BUT TRAVELED IN A LEVEL 3 AREA**

- Close contact
- 1
- 2
- 3

**OPTION A: If this is you...**
Self-monitor for COVID-19-like illness vigilantly for 14 days from the date of last contact with the ill person. Isolate yourself if you develop symptoms and call (949) 824-5304 for guidance.

**OPTION B: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

**OPTION C: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

**OPTION X: If this is you...**
Self-monitor for COVID-19-like illness vigilantly for 14 days from the date of last contact with the ill person. Isolate yourself if you develop symptoms and call (949) 824-5304 for guidance.

**OPTION Y: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

**OPTION Z: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

**OPTION 1: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

**OPTION 2 or 3: If this is you...**
No need to self-isolate. Practice social distancing. Watch for symptoms. If you develop fever or other symptoms, contact (949) 824-5304 or your primary care provider.

*Close contact means being within 6 feet for a prolonged period of time OR having direct contact with infectious secretions (e.g., being coughed on).*

**NOTE:** If you have a connection that is more distant than the options described above, you do NOT need to do anything more than social distancing, which is recommended for everyone. People connected to you do not need to do anything different from everyone else, unless they themselves have risks due to some other exposure.
